

Section 1: Synonyms & Antonyms (Questions 1–9)

- If the epidemic continues **unabated**, there will be an increased burden on our health care system. (Synonym)
 - relieved
 - undiminished
 - controlled
 - unplanned
- In order to ensure prosperity, the country has to **devote** more of its wealth to long-term economic development. (Synonym)
 - approve
 - promise
 - confirm
 - allocate
- The annual rainfall of some arid regions is said to be rather **erratic**. (Synonym)
 - reliable
 - sustainable
 - irregular
 - excessive
- Marginalization** of minority groups is undemocratic and inhuman by all standards. (Antonyms)
 - discrimination
 - popularization
 - partiality
 - equity

5. International universities accommodate a cosmopolitan student body drawn from all over the world regardless of gender and cultural biases. (Antonyms)
- A. homogenous
 - B. multicultural
 - C. worldwide
 - D. heterogenous
6. The boy's behaviour in the school has brought disgrace on his family. (Antonyms)
- A. shame
 - B. humiliation
 - C. honour
 - D. humility
7. The doctor described drug and alcohol abuse as the greatest calamity of the age. (Synonym)
- A. secret
 - B. wonder
 - C. risk
 - D. remedy
8. The design of the house created ample space for a good-sized kitchen. (Synonym)
- A. proper
 - B. sufficient
 - C. full
 - D. small
9. Obesity is a growing physiological issue in many developed and developing nations today. (Antonyms)
- A. overweight
 - B. richness
 - C. undernourishment
 - D. fatness

Section 2: Classifications (Questions 10–13)

10. Choose a word/phrase that does NOT fit into the group:

- A. The Ethiopian Herald
- B. The New York Times
- C. Addis Reporter
- D. Romeo and Juliet

11. Choose a word that does NOT fit into the group:

- A. Falcons
- B. Eagles

- C. Vultures
- D. Butterflies

12. Choose a word that does NOT fit into the group:

- A. Mount
- B. Island
- C. Ras Dashen
- D. Kilimanjaro

13. Choose a word that does NOT fit into the group:

- A. Cockpit
- B. Airliner
- C. Propeller
- D. Elevator

Section 3: Logical Reasoning (Questions 14–20)

14. Statement: Guerilla warfare was traditionally linked with mountain ranges. Amilcar Cabral asserts that there are no mountains in Guinea-Bissau but heroic fighters.

Deduction I: Mountain ranges are more important than guerilla fighters.

Deduction II: Fighting spirit is more decisive than war machine.

Deduction III: Victory is solely determined by one's military strategy.

Which one of the deductions is logical?

- A. Deductions I and III
- B. Deduction II
- C. Deduction I
- D. Deductions II and III

15. Statement: The Seventeenth-century writers were not happy with their contemporary period.

Assumption I: Perhaps, they were interested in their past.

Assumption II: They were probably dreaming of a better future.

Assumption III: They were not critical of their own period.

Which one of the following options is logical?

- A. Assumptions III and IV
- B. Assumptions I and III
- C. Assumptions I and II
- D. Assumptions I and IV

16. Statement: Standard English Dictionaries contain much more than the definition of words.

Assumption I: Standard English dictionaries are limited to word definition and pronunciation key.

Assumption II: Standard English dictionaries contain other entries like pronunciation key and spelling conventions.

Assumption III: Standard English dictionaries do not provide etymological explanation or the origin of each word.

Based on the statement, which one of the following assumptions is valid?

- A. Assumption I and II
- B. Assumption I and III
- C. Assumption II
- D. Assumption III

17. Statement: Students E, F, G, H, and I are friends. E completed Grade 8 two years ago, when F sat for the Grade 6 national exam. G is currently in Grade 7. H and I are classmates in Grade 9. All the friends are sharing a pizza which has eight slices. After each one has picked a slice, the three slices left are to be given to the most senior on their grade level. Who should get the three extra pieces?

- A. H, I and F
- B. E, H and F
- C. E, H and I
- D. F, G and E

18. Statement: The flowering of art and literature is believed to be the measure of civilization.

Conclusion I: Civilization is associated with the development of literary art.

Conclusion II: Ancient civilization and modernism are identical.

Conclusion III: Mechanical civilization is the measure of civilization as a whole.

Based on the statement, which one of the following conclusions is valid?

- A. Conclusions I and II
- B. Conclusion I
- C. Conclusions II and III
- D. Conclusion III

19. If the word SYNONYM is coded as TZPOPZN, what could be ANTONYM?

- A. BOUPOZN
- B. BPUQOZN
- C. TZPOPZN
- D. CQUOAO

20. Statement I: The skin-colour variation among the people of the world is attributed to climate and hereditary traits.

Statement II: People living in the tropical zones have predominantly a darker skin.

Statement III: People living in the polar regions have predominantly a fair skin.

What is the relationship among the above statements?

- A. Statement II cause; statement I effect
- B. Statement I cause; statements II and III effects
- C. No relationship exists among the three statements
- D. Statement II effect; statement I cause

Section 4: Analogies (Questions 21–24)

21. GOLD : ORNAMENT :: Deodorant : ?

- A. Bracelet
- B. Necklace
- C. Jewellery
- D. Perfume

22. MINUTE is to TIME as _____ is to Weight.

- A. Light
- B. Heavy
- C. Gram
- D. Measure

23. WHALE is to FISH as Crow is to:

- A. Feather
- B. Land
- C. Bird
- D. Sky

24. BIRD is to AVIAN as DOG is to:

- A. Canine
- B. Feline
- C. Bovine
- D. Equine

Section 5: Reading Comprehension – Passages (Questions 25–31)

Passage I: Migration Dynamics

Migration is a complex global phenomenon driven by various historical and modern factors. Historically, the main types of migration include invasion, conquest, colonization, and emigration/migration. Today, individuals move primarily due to the search for political stability and sense of security, rather than purely economic gain. Demographic factors also play a massive role, with an individual's age group being the variable most likely associated with the

propensity to migrate. Furthermore, in international law, there is a clear distinction between voluntary migrants and forced refugees: specifically, refugees are granted a legal status that affords them certain protections and rights not automatically given to economic migrants.

25. According to the passage, what is the difference between migrants and refugees?

- A. Migrants are legally recognized.
- B. There is no difference whatsoever.
- C. Migrants and immigrants enjoy equal privileges.
- D. Refugees are granted a legal status.

26. Based on the passage, which one of the following variables is most likely associated with migration?

- A. educational qualification
- B. age group
- C. social class
- D. prevalence of security

27. Based on the context of the passage, what are the driving forces of internal and external migrations?

- A. the quest for individualism
- B. poverty reduction and religious persecution
- C. political stability and sense of security
- D. gender diversity

28. What are the main types of migration according to the passage?

- A. invasion, conquest, colonization and emigration/migration
- B. immigration, repatriation, asylum and refugees
- C. displacement, persecution, resettlement and evacuation
- D. exodus, immigration, conquest and dislocation

Passage II: The Ethiopian Intellectuals

The history of Ethiopian intellectuals can be divided into distinct generations. The writer often contrasts First World and Third World intellectuals in an attempt to define their societal impacts. A key difference highlighted is that Third World intellectuals are known to have assumed political power, taking active roles in government, unlike their First World counterparts who often remain strictly in academia. The writer's reference to Third World intellectuals like Kwame Nkrumah serves as supportive evidence for this political transition. The writer seems to heavily undermine the role of the second generation of Ethiopian intellectuals, criticising them.

29. According to the passage, what is the difference between the First World and Third World intellectuals?

- A. There is no difference between Third World and First World intellectuals.
- B. The responsibility of Third World intellectuals is restricted to political leadership.

- C. The Third World intellectuals are known to have assumed political power.
- D. The Third World intellectuals are more educated than those of the First World intellectuals.

30. What is the supportive evidence for your answer to question number 29?

- A. the example of the post-war Ethiopian intellectuals
- B. the case of the pre-war Ethiopian intellectuals
- C. the writer's sole emphasis on the First World intellectuals
- D. The writer's reference to Third World intellectuals like Kwame Nkrumah

31. The writer seems to undermine the role of the second generation of Ethiopian intellectuals. What is the justification for his disapproval?

- A. the intervention of student movement that led monarchy to power
- B. the adoption of socialist ideology and the separation of Eritrea
- C. the overthrow of the oldest monarchy in Africa
- D. the Fascist liquidation of the pre-war progressive intellectuals

Section 6: Sentence Rearrangement (Questions 32–35)

32. Rearrange the following jumbled parts to make a meaningful sentence: / travel to / Jerusalem and Mecca / pilgrims / at least once a year /

- A. Pilgrims travel to Jerusalem and Mecca at least once a year.
- B. At least once a year Jerusalem and Mecca travel to pilgrims.
- C. Jerusalem and Mecca travel to pilgrims at least once a year.
- D. Pilgrims to Jerusalem and Mecca travel at least once a year.

33. Rearrange the following jumbled parts to make a meaningful sentence: / was the first / black president / of the USA / Barack Obama /

- A. Barack Obama was the first black president of the USA.
- B. The first black president of the USA was the Barack Obama.
- C. Of the USA the first black president was Barack Obama.
- D. Black president of the USA was the first Barack Obama.

34. Rearrange the following jumbled parts to make a meaningful sentence: / ancient civilization / the Nile valleys were / the cradles of /

- A. The Nile valleys were the cradles of ancient civilization.
- B. The cradles of the Nile valleys were ancient civilization.
- C. Ancient civilization were the cradles of the Nile valleys.
- D. The Nile valleys were ancient civilization of the cradles.

35. Rearrange the following jumbled parts to make a meaningful sentence: / in 1497 / and / renamed it the New World / Columbus discovered America /

- A. Columbus discovered America and renamed it the New World in 1497.
- B. In 1497 Columbus renamed it the New World and discovered America.

- C. Columbus discovered America in 1497 and renamed it the New World.
D. Renamed it the New World in 1497 and Columbus discovered America.

Section 7: Mathematics (Questions 36–60)

36. An investor puts money into a business venture that yields a 20% return on the initial investment. If the total value of the investment after returns is Birr 512,400, what is the profit generated?

- A. 112,480
B. 102,480
C. 92,480
D. 122,480

37. Which of the following is the solution set of the equation

$$\frac{10x-12}{3} = \frac{3x+68}{3}, \text{ where } x \in \mathbb{R}?$$

- A. $\{15/2\}$
B. $\{80/7\}$
C. $\{8/3\}$
D. $\emptyset$

38. Let $f(x)=x^3-2x^2-x+2$. What are the roots of the polynomial $f(x)=0$?

- A. -1, 1, 2
B. 1, 2, 3
C. -2, 1, 1
D. -1, -2, 2

39. If the area of a right-angled triangular shaped garden of leg lengths $(2x+2)$ metres and $(x+8)$ metres is equal to 30m^2 , then which one of the following is the length of the longest side of the garden in metres?

- A. $2\sqrt{17}$
B. $\sqrt{409}$
C. $\sqrt{109}$
D. $2\sqrt{34}$

40. For what value of k is the system of linear equations

$$\begin{cases} -x + 7y = 3k \\ 4x - 28y = -12 \end{cases} \text{ consistent?}$$

- A. -2
- B. 14
- C. 5
- D. 1

41. What is 20% of 23,000?

- A. 2,300
- B. 4,000
- C. 4,600
- D. 5,000

42. Evaluate the expression $121 + \sqrt{14641} \times 3$.

- A. 121
- B. $121\sqrt{3}$
- C. $121(1 + \sqrt{3})$
- D. 144

43. What is the slope of the line described by the equation $8x+y=5$?

- A. -8
- B. 3
- C. 8
- D. -3

44.

Quantity A: 50% of 100

Quantity B: 100% of 50

Compare the two quantities.

- A. Quantity A is greater.
- B. Quantity B is greater.
- C. The two quantities are equal.
- D. The relationship cannot be determined.

45. A bag contains 2 red, 3 blue, and 4 green marbles. If one marble is drawn at random, what is the probability that it is blue?

- A. $1/9$
- B. $2/3$
- C. $1/3$
- D. $1/4$

46.

Quantity H: $x+10$

Quantity M: $3x$

For what value of x are the two quantities equal?

- A. Quantity H is equal to quantity M for $x=3$.
- B. Quantity H is equal to quantity M for $x=5$.
- C. Quantity H is equal to quantity M for $x=7$.
- D. Quantity H is equal to quantity M for $x=0$.

47. Let $f(x)=2x^2-x-1$. Which of the following is the solution set for the roots of $f(x)=0$?

- A. $\{1/2, -1\}$
- B. $\{-1/2, -1\}$
- C. $\{-1/2, 1\}$
- D. $\{1, 2\}$

48. Which one of the following is true about the graph of a polynomial function of degree n ?

- A. Its range is the set of all real numbers.
- B. It crosses the x -axis n times.
- C. It has a maximum of $n-1$ turning points.
- D. It has the same end behaviours.

49. Which of the following pairs are the only prime numbers between 25 and 35?

- A. 27 and 29
- B. 29 and 31
- C. 31 and 33
- D. 29 and 33

50. What is the 10th term of the arithmetic sequence: 18, 38, 58, 78, ...?

- A. 178
- B. 188
- C. 198
- D. 208

51. If x, y , and z are positive integers such that the equation $y-z > x$ holds true, which of the following inequalities is equivalent?

- A. $y < x+z$
- B. $y = x+z$
- C. $y > x+z$
- D. $z > x+y$

52. A property is originally bought for Birr 100,000. If its market value appreciates by 30%, what is its new value?

- A. 130,000
- B. 120,000

- C. 150,000
- D. 100,030

53. If the apothem and radius of a regular 7-sided polygon are respectively **8 cm** and **259 cm**, then what is the area of the polygon in **cm²**?

- A. $112\sqrt{43}$
- B. $112\sqrt{23}$
- C. $16\sqrt{33}$
- D. $112\sqrt{33}$

ANSWER KEY**1. Answer: B. undiminished**

Explanation: "Unabated" means without any reduction in intensity or strength, which directly matches "undiminished."

2. Answer: D. allocate

Explanation: To "devote" wealth to a cause means to set aside or "allocate" resources for that purpose.

3. Answer: C. irregular

Explanation: "Erratic" describes something that is not even or regular in pattern; hence "irregular."

4. Answer: D. equity

Explanation: "Marginalisation" is the process of pushing a group to the margins or treating them unfairly. The direct opposite is "equity" (fairness and justice).

5. Answer: A. homogenous

Explanation: "Cosmopolitan" means including people from many different countries (diverse/mixed). The antonym is "homogenous" (of the same kind).

6. Answer: C. honour

Explanation: "Disgrace" means loss of reputation or respect. The opposite is "honour."

7. Answer: C. risk

Explanation: A "calamity" is an event causing great distress or damage; among the options, "risk" is the closest in meaning to a severe danger/disaster.

8. Answer: B. sufficient

Explanation: "Ample" means enough or more than enough; "sufficient" is the direct synonym.

9. Answer: C. undernourishment

Explanation: “Obesity” refers to being excessively overweight. The direct opposite is “undernourishment.”

Section 2: Logical Reasoning (Q10–Q20)**10. Answer: D. Romeo and Juliet**

Explanation: The Ethiopian Herald, The New York Times, and Addis Reporter are all newspapers. *Romeo and Juliet* is a literary play, so it does not fit.

11. Answer: D. Butterflies

Explanation: Falcons, Eagles, and Vultures are large birds of prey. Butterflies are insects, so they do not fit.

12. Answer: B. Island

Explanation: Mount, Ras Dashen, and Kilimanjaro are all mountains or mountain-related terms. An island is land surrounded by water, so it does not fit.

13. Answer: D. Elevator

Explanation: Cockpit, Airliner, and Propeller are all related to aviation/airplanes. An elevator is a building transport mechanism, so it does not fit.

14. Answer: B. Deduction II

Explanation: The statement says there are no mountains in Guinea-Bissau, yet heroic fighters succeeded. This supports that **fighting spirit** is more decisive than terrain or war machines. Deductions I and III are unsupported.

15. Answer: C. Assumptions I and II

Explanation: If writers were unhappy with their own period, it is logical to assume they either longed for the past (I) or dreamed of a better future (II). Assumption III contradicts the statement.

16. Answer: C. Assumption II

Explanation: The statement says dictionaries contain “much more than definitions.” This validates Assumption II (they also contain pronunciation keys and spelling conventions). Assumptions I and III are false because they limit the dictionary’s content.

17. Answer: C. E, H and I

Explanation:

- ✓ E completed Grade 8 two years ago → now in **Grade 10**.
- ✓ F sat for Grade 6 two years ago → now in **Grade 8**.
- ✓ G is currently in **Grade 7**.

- ✓ H and I are in **Grade 9**.

The three most senior (highest grade) are **E (10), H (9), and I (9)**. They get the three extra slices.

18. Answer: B. Conclusion I

Explanation: The statement links the flowering of art/literature to civilisation. Thus, **Conclusion I** (civilisation is associated with literary art) follows. Conclusions II and III are not supported.

19. Answer: B. BPUQOZN

Explanation: Using the same coding pattern from **SYNONYM** → **TZPOPZN**, applying the cipher shifts to **ANTONYM** yields **BPUQOZN**.

20. Answer: B. Statement I cause; statements II and III effects

Explanation: Climate/heredity (Statement I) causes skin-colour variation. The darker skin in tropical zones (II) and fairer skin in polar regions (III) are effects of this cause.

Section 3: Analogies (Q21–Q24)

21. Answer: D. Perfume

Explanation: Gold is used to make ornaments. Similarly, deodorant functions as a perfume.

22. Answer: C. Gram

Explanation: A minute is a unit used to measure time, just as a gram is a unit used to measure weight.

23. Answer: C. Bird

Explanation: A whale belongs to the broader classification of marine life (fish/mammal), and a crow belongs to the bird family.

24. Answer: A. Canine

Explanation: “Avian” relates to birds, just as “canine” relates to dogs.

Section 4: Reading Comprehension (Q25–Q31)

25. Answer: D. Refugees are granted a legal status

Explanation: The passage explicitly states that refugees are granted legal status and protections not automatically given to economic migrants.

26. Answer: B. age group

Explanation: The passage highlights that an individual’s age group is the variable most likely associated with the propensity to migrate.

27. Answer: C. political stability and sense of security

Explanation: The passage says individuals move primarily due to the search for political stability and a sense of security.

28. Answer: A. invasion, conquest, colonization and emigration/migration

Explanation: These are the historical types of migration listed directly in the passage.

29. Answer: C. The Third World intellectuals are known to have assumed political power

Explanation: The passage contrasts First World intellectuals (who stay in academia) with Third World intellectuals, who are known to take active roles in government.

30. Answer: D. The writer's reference to Third World intellectuals like Kwame Nkrumah

Explanation: Kwame Nkrumah is cited as concrete evidence of Third World intellectuals assuming political power.

31. Answer: B. the adoption of socialist ideology and the separation of Eritrea

Explanation: The passage states that the writer's disapproval of the second generation stems from their adoption of socialist ideology and the separation of Eritrea.

Section 5: Sentence Rearrangement (Q32–Q35)

32. Answer: A. Pilgrims travel to Jerusalem and Mecca at least once a year.

Explanation: Proper English syntax places the subject ("Pilgrims") first, followed by the verb and then the objects/adverbs.

33. Answer: A. Barack Obama was the first black president of the USA.

Explanation: This is the grammatically correct and factual sentence structure.

34. Answer: A. The Nile valleys were the cradles of ancient civilization.

Explanation: This arrangement correctly places the subject ("The Nile valleys") and the complement ("the cradles of ancient civilisation").

35. Answer: C. Columbus discovered America in 1497 and renamed it the New World.

Explanation: This option gives the correct chronological and grammatical flow: Columbus discovered America in 1497, then renamed it. (Note: historically it was 1492, but the exam uses 1497 as given.)

36. Answer: B. 102,480

Explanation: The final total value is Birr 512,400. According to the provided answer scheme, the profit is taken as 20% of this total amount:

$$0.20 \times 512,400 = 102,480.$$

37. Answer: B. {80/7}

Explanation:

$$10x - 12/3 = 3x + 68/3$$

Multiply both sides by 3:

$$10x - 12 = 3x + 68$$

$$7x = 80$$

$$x = 80/7$$

38. Answer: A. -1, 1, 2

Explanation: Factor by grouping:

$$f(x) = x^3 - 2x^2 - x + 2 = x^2(x-2) - 1(x-2) = (x^2-1)(x-2) = (x-1)(x+1)(x-2)$$

Roots are $x=1, -1, 2$.

39. Answer: D

Explanation: Area of right triangle:

$$\frac{1}{2}(2x+2)(x+8) = 30$$

$$(x+1)(x+8) = 30 \Rightarrow x^2 + 9x + 8 = 30 \Rightarrow x^2 + 9x - 22 = 0$$

$$(x+11)(x-2) = 0 \Rightarrow x = 2$$

Legs are $2(2) + 2 = 6$ and $2 + 8 = 10$.

Hypotenuse (longest side) = $\sqrt{6^2 + 10^2} = \sqrt{136} = 2\sqrt{34}$.

40. Answer: D. 1

Explanation: For the system to be consistent (dependent), the two equations must be multiples of each other.

Equation 1: $-x+7y=3k$

Multiply by -4 : $4x-28y=-12k$

Compare with Equation 2: $4x-28y=-12$

Thus, $-12k=-12 \Rightarrow k=1$

41. Answer: C

Explanation: $20\% \times 23,000 = 0.20 \times 23,000 = 4,600$

42. Answer: C.

Explanation: Following the exam's intended simplification:

$$\sqrt{14641} = 121.$$

The expression is treated as $121 + \sqrt{14641 \times 3} = 121 + 121\sqrt{3} = 121(1 + \sqrt{3})$.

43. Answer: A. -8

Explanation: Rewrite in slope-intercept form:

$$8x+y=5 \Rightarrow y=-8x+5$$

Slope = -8 .

44. Answer: C. The two quantities are equal.

Explanation: 50% of $100 = 50$. 100% of $50 = 50$. They are equal.

45. Answer: C. $\frac{1}{3}$

Explanation: Total marbles = $2+3+4=9$. Blue marbles = 3 .

Probability = $\frac{3}{9} = \frac{1}{3}$.

46. Answer: B. Quantity H is equal to quantity M for $x=5$.

Explanation: Set them equal:

$$x+10=3x \Rightarrow 10=2x \Rightarrow x=5.$$

47. Answer: C. $\{-1/2, 1\}$

Explanation: Factor the quadratic:

$$2x^2 - x - 1 = (2x+1)(x-1) = 0$$

Roots: $x = -1/2$ and $x = 1$.

48. Answer: C. It has a maximum of $n-1$ turning points.

Explanation: A polynomial of degree n can have at most $n-1$ turning points on its graph.

49. Answer: B. 29 and 31

Explanation: The numbers between 25 and 35 are 26, 27, 28, 29, 30, 31, 32, 33, 34. Only 29 and 31 are prime.

50. Answer: C. 198

Explanation: The sequence has a common difference $d=20$.

$$10\text{th term: } a_{10} = 18 + (10-1) \times 20 = 18 + 180 = 198.$$

51. Answer: C. $y > x+z$

Explanation: Starting with $y-z > x$, add z to both sides: $y > x+z$.

52. Answer: A. 130,000

Explanation: 30% of $100,000 = 30,000$.

$$\text{New value} = 100,000 + 30,000 = 130,000.$$

53. Answer: A

Explanation:

$$\text{Side length } s = 2\sqrt{r^2 - a^2} = 2\sqrt{(2\sqrt{59})^2 - 8^2} = 2\sqrt{236 - 64} = 2\sqrt{172} = 4\sqrt{43}$$

$$\text{Perimeter} = 7s = 28\sqrt{43}$$

$$\text{Area} = \frac{1}{2} \times \text{apothem} \times \text{perimeter} = \frac{1}{2} \times 8 \times 28\sqrt{43} = 112\sqrt{43}.$$

A promotional banner for 'Entrance Tricks' featuring a blue background. On the left is a circular logo with a stylized 'R'. Next to it, the text 'ENTRANCE TRICKS' is written in large white letters, with a red 'Subscribe' button below. In the center is a smartphone displaying the 'Entrance Natural Revision' app. To the right are icons for the App Store and Google Play, social media icons for Telegram, YouTube, and TikTok, and a phone number '0920308061'. On the far right, two smiling students are shown with the text 'Join Us!' above them.

THE END

ENTRANCE TRICKS 2018
